Galipette's products are made in Gautier's* factories in the Vendée region of France, where safety comes first and no compromises are made.

Galipette furniture is tested in our in-house laboratory at every stage of production to comply with European standards EN 716 and EN 12221. But that's not all, the wood used in producing the furniture comes from regional, sustainably managed French forests located within 300 km of Galipette's factories in the Vendée region.

Combining the changing board with the chest and adding a small bookcase creates maximum changing space so you can keep all your baby's changing essentials close at hand.

And as baby grows...

Your nursery will be transformed to help your child grow and blossom. The cot can be converted into a 70 x 140 cm little bed using the two 140 cm conversion panels supplied.

...more storage is needed

The Lilo wardrobe is really practical with one side for hanging and one side with shelving, with a modular layout to suit your baby's needs. Each door is fitted with a soft-close mechanism to ensure baby's sweet dreams are undisturbed.
